A dynamic Full Stack Developer with expertise in Node.js, React.js Redux toolkit ,JavaScript,PHP and MySQL. Committed to building robust, efficient, and user-centric applications. Adept at leading development cycles, solving complex challenges, and consistently delivering high-quality solutions within deadlines.

❖ EDUCATION

- **BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE & Engineering**
  Jharkhand University of Technology **|** CGPA: 8.1/10   (**2020-2024)**

❖ Skills

TECH-STACKS	: FRONT-END	→	HTML, CSS, JavaScript, Redux toolkit, React JS, Tailwind CSS, Bootstrap, Material UI
	BACK –END	→	Node.js,Express.js, RESTful API
	DATABASES	→	MySQL, Xampp SQL server
	AI-TOOLS	→	GPT3.**5**, Bard AI, DSA (C++)
	Tools & Technologies	→	Git & Github, Visual Studio Code, Postman,Canva

❖ WORK EXPERIENCE

- **SNMR GROUP | Full Stack web Developer**   (July 2024 - ongoing)
  - -> **Website Development**: Designed and developed responsive websites for clients like Aeropost India**,** Uniglobe Logistics**,** Oneglobe Logistics**, IHKLC , AHTTC ,** RGMTTC**,** and DCS**,** using HTML5**,** CSS3**,** JavaScript**,** Bootstrap**,** Tailwind CSS**,** PHP**,** and SQL**.**
  - -> **E-commerce Application**: Built and manage SNMR-KART using Shopify for scalable and efficient performance.
  - -> **Management Software**: Developed a custom Employee management software for SNMR Group with the MERN Stack to streamline operations and call management for the organization.

❖ PERSONAL PROJECTS

- **YouTube Clone using React.js**
  Developed a YouTube clone using the MERN stack, leveraging Redux Toolkit for efficient state management. Designed a responsive UI with Tailwind CSS and Material UI. Integrated JSON Server for dummy data and implemented key features like video playback, search functionality, and user authentication.

- **Authentication System (Node.js, Express, MySQL, React):** Built a full-featured authentication system with user registration, login, and JWT-protected routes. Implemented secure password hashing using bcrypt, real-time email configuration for "Forgot Password" via Nodemailer, and token-based access control. Included role-based protection and persistent login using local storage.

- **Weather App Using React.js**
  Developed a weather application using Shadcn ui,Tanstack query, integrating the OpenWeather API to fetch real-time weather data. Designed a responsive UI with Tailwind CSS, allowing users to search for any city and view temperature, humidity, and weather conditions dynamically.

❖ POSITION OF RESPONSIBILITIES

- **SNMR GROUP | Project Lead**
- **Smart Breaker with Zebra Crossing:| College Project Lead**

❖ ACHIEVEMENTS/ CERTIFICATIONS

- **Summer Internship Program(July 2024)**:Actively embraced new learning opportunities, effectively tackled assigned tasks, and demonstrated exceptional full stack development skills while collaborating with team members.
- **LOR Certificate(July 2024)***:* worked as a FullStack Developer Intern,demonstrating responsibility, sincerity, willingness to learn, enthusiasm for new challenges, consistently delivered high-quality work.
- **JavaScript Algorithms and data Structures(July 2023):** This certification course helped me to understand and replicate all the concepts of JavaScript as well as of EcmaScript in project building.
